## Purpose of visit

Before visiting the Shree Buddha Secondary School in Philim (Computer room implementation in 2018), we heard about the boarding school in Bhangsing. Compared to Philim, Bhangsing is not located on any trekking route and therefore very remote, even if it is only 1,5h walk from Philim. Such schools do not get as much support as the schools located on trekking routes. As we are already close to the village during our visit in Philim, we decided to plan a short visit to the Bhangsing boarding school and donor some school materials.

## Further information and follow up

There are no regular lessons because there are not enough teachers available. One teacher died recently, and the school management is already searching for a successor. Some classrooms don't have any furniture. There are around 60-70 students age ~5-12.
